**ELECTION**

Commissioner for Patents  
Group Art Unit 3682  
Alexandria VA 22313

Dear Examiner Charles:

This election is filed in response to the Restriction and Election Requirement mailed 11/19/07. In response to the Requirement mailed 11/19/07, and for the avoidance of doubt, Applicant hereby supercedes the elections mailed on 6/12/2007 and 8/31/2007 with the election herein.

**I. Election:**

Applicant elects invention I, claims 1-26 which are drawn to a dual pulley belt drive, classified in class 474, subclass 70.

Applicant elects a single disclosed species, namely, specie 1 as shown in Fig. 3. Claims readable thereon are 9-12 and 13-18.

**II. Remarks:**

For the purpose of clarity, please note that claims 1-26 are all broadly drawn to a "system". Each such system comprises a "clutch unit", however, the Examiner has identified figures which describe only the clutch units. The system descriptions are set forth in Figs. 2, 6, 7, 8, 11 and 12; which figures are not listed in paragraph 4 of the Requirement. Therefore, this election is intended to respond directly to the Requirement as presented.

In the alternative and in the interest of advancing the application, to the extent the Examiner chooses to adopt any or all of the Applicant's remarks, Applicant would elect the specie as shown in Fig.
